**Drinking  
& Driving**

## DO NOT DRINK AND DRIVE

### If you drink - don't drive.

Take turns with your friends or family to be sober designated drivers.

Arrange lifts with sober party goers or provide overnight accommodation for your guests.

Do not allow your guest to drive themselves home if they were drinking alcohol.

Being below the limit does not automatically lower your risk of being involved in a crash, rather not drink and drive at all.

## ALCOHOL + DRIVING = DEADLY

If you drink – don't drive

Take turns with your friends or family to be sober designated drivers.
